Classic

- **Application: aluminium**
- Standard spindle length: 25 mm
- Available colours: RAL palette

The Classic handle is a universal solution for aluminum windows. The combination of traditional design with modern color schemes makes it blend perfectly with various interiors. Its sturdy construction and high-quality materials ensure durability and functionality for many years of use.

For selected shaft lengths and handle colors, the handle is available with a key option.

Also available in a version for fork fittings.
