Glass Barrier

- **balustrade height: 300, 900, 1000 mm**
- max. railing width: 3000 mm
- laminated tempered glass
- clear or frosted glass
- glass thickness: 12, 16 or 22 mm
- standard fixing on anchors
- optional mounting on the profile
- installation directly on the frame

The Glass Barrier glass balustrade, the so-called French balcony, is designed to protect high windows without obscuring the view. It allows the use of transparent or frosted glass up to 1 meter high. The maximum width depends on the thickness of the glass used.

The balustrade is attached directly to the window frame already at the production stage, thanks to which the customer receives a finished product. The upper edge is secured with an aluminium. The available colours of the guides are **white, anthracite and natural anode EV1 (silver).**

Glass Barrier can be combined with single and double sash PVC windows in the following systems:

– Ideal 8000
– BluEvolution 82
– BluEvolution 92
– S9000

and with aluminium windows:

– MB77HS
– MB86N
– MB79N
– Genesis

– Ultraglide
