Greta HST

- **installation depth: 194 mm**
- glazing with units from 24 to 52 mm thick
- sash width: 82 mm
- available schemes: A, C, D, G, K
- electric drive possible (scheme A)
- profile in architectural concrete colour

The Greta HST lift-and-slide system is a premium solution designed for demanding customers who pay particular attention to the principles of sustainable development. Its profiles are made from 100% recycled plastic, which, combined with the very good thermal performance of the HST solution, effectively reduces the investor's carbon footprint. Spaces fitted with Greta HST offer excellent functionality thanks to the option of a "zero" threshold, almost flush with the floor.

Why it is worth recommending the Greta PVC sliding system:

- it is a new eco-friendly offer, based on proven solutions that have been on the market for years
- it offers the truly unique look of concrete-like profiles, which fits perfectly with modern construction standards and is pleasant to the touch
- as an HST solution, it performs very well, especially in terms of thermal insulation and tightness compared with other sliding systems

Choose the Greta PVC lift-and-slide system if your customers:

- plan their investments with sustainable development in mind, favouring products with the lowest possible carbon footprint
- expect barriers to be removed with a low threshold, almost flush with the floor, which helps people with reduced mobility to move around
- are looking for solutions to create large sliding or fixed elements that let in plenty of natural light

Get to know the Greta PVC sliding system:

- heat transfer Uw from 0.78 W/m²K

- frame heat transfer coefficient U_f = 1.3 W/m²K
- lift-and-slide system
- maximum frame size 6400 x 2700 mm
- frame reinforcement in closed steel sections
- the door can be locked in any position for controlled ventilation of the interior
- watertightness: class 2A (for a single-sash window)
- air permeability: class 2
- wind resistance: class C4
- porous profile structure, noticeable to the touch
