The modern Hoppe Elegance handle is designed for use with Synego family PVC windows and wooden windows. Its form perfectly harmonises with modern profiles and high-quality workmanship.

Hoppe Elegance is equipped with an advanced solution, Hoppe Secustick®, which makes it difficult for unauthorised persons to access the interior. When someone tries to get inside by attacking the fittings from the outside, the handle will lock and emit loud, ticking sounds alerting to the danger. Its opening can The Hoppe Elegance handle is a product offered exclusively by Eko-Okna.
