HubPowerbank

- **Manufacturer: Nice**
- Creates own Wi-Fi network (after inserting SIM card)
- Enables the operation of the smart home control panel in any place
- Acts as an emergency battery for the smart home control panel
- Ideal for summer houses, campers and other types of vehicles
- Battery capacity (power bank): 4600 mAh

Nice HubPowerbank is a rechargeable, portable 3G/4G USB-powered router. The device can be connected to the Home Center 3 Lite or Yubii Home control panel and get an additional power source.

After inserting the SIM card, the HubPowerbank becomes a Wi-Fi wireless Internet router, creating a backup network for smart home devices. It can also receive and send SMS messages.

The HubPowerbank has an SD card slot.
