Inel N10LEE/N20LEE

- **manufacturer: Inel**
- control: wired
- eEmergency battery backup
- for use in evacuation routes

Inel N10LEE tubular motors for roller shutters are a solution designed primarily for creating a second evacuation route from buildings, running through openings secured with roller shutters. This wired electric drive has a built-in, constantly charged battery, allowing the roller shutter curtain to be raised even in the event of a power outage.

The drive is also available in a version with higher torque: Inel N20LEE – 20 Nm.

Learn more about the Inel N10LEE and Inel N20LEE drives:

- Supply voltage: 12 V DC
- Supply power: 42 W / 55 W
- Torque: 10 Nm / 20 Nm
- Rotation speed: 14 rpm / 10 rpm
- Protection rating: IP44
- Maximum operating time: <= 4 min (battery power)
- Operating temperature: –30 to +55°C
- Total drive length: 655 mm / 740 mm
- Total drive weight: 1.55 kg / 2.5 kg
