# Medos Dublin (anodised)

- **Application: PVC, aluminium, wood**
- Standard spindle length: 35 mm
- Available colours: sandblasted silver F1, sandblasted gold F4, sandblasted black, brushed silver, brushed gold, brushed black, brushed stainless steel
- Available variants: standard, with key, with push-button

The premium handle made of anodised aluminium combines excellent modern design with functionality. The handle stroke in 45-degree increments makes it possible to install them in windows with micro ventilation. Handle anodised by sandblasting or brushing in variants: F1, F4, F9005.

The handle is available in key and push-button variants for selected spindle lengths and colours.
