Muntin bars

- **material: aluminium**
- recommended muntin bar widths: 8, 18, 26, 45 mm
- colour options for 8 mm muntin bars: gold, matte gold, matte silver, white
- colour options for wider muntin bars: any veneer package
- Benefit Eko-Okna: Learn how to minimise the risk of 'ringing' Muntin bars

Aluminium-made, our internal decorative muntin bars are a stylish addition that gives windows a unique character. Make use of the Benefit Eko-Okna knowledge base and discover the best practices for using decorative Georgian bars to avoid the risk of vibration and the 'ringing' effect.

The 8 mm wide muntins are available in several attractive colours, and for wider muntins there is a palette of veneers to choose from. They allow the creation of a beautifully cohesive composition or introduce bold contrasting elements into the glazing.
