Pivot Line panels

- **PIVOT door panels**
- material: aluminium
- LED backlighting in white (warm or cool white)
- maximum height: 3100 mm
- maximum width: 1800 mm
- opening scheme: inwards

Pivot Line panels are designed for use in door systems with a shifted pivot axis. They will be a prestigious showcase for any building thanks to their high functionality, exclusive materials, and top-quality workmanship.

The option to choose very large leaves makes Pivot Line panels an excellent choice for homes, as well as offices and public buildings, emphasizing their modern character.

*Some panels are only available in predefined sizes and accessory configurations. Please contact the Sales Department to learn about currently available options.
