PVC

- **Application: PVC**
- Standard spindle length: 35 mm (not available in any other spindle lengths)
- Available colours: white, brown, gold
- Available variants: standard

The window handle is made of high-quality plastic, which translates into its durability and reliable performance. It will match window frames of the same or similar colours. The shape of the escutcheon is oval and universal, thanks to which the handle fits in appearance with all window frames made of PVC and wood.
