Retro handles

- **Application: timber**
- Spindle length: 30-40 mm as standard
- Available colours: model dependent
- Available variants: standard

Handles from the Retro series are a perfect complement to rustic timber doors and windows. Their decorated forms distinctly depart from contemporary minimalist aesthetics, allowing for a decisive break from the prevailing trends in modern spaces.

A worthwhile addition to the retro handles are Georgian bars and decorative grilles, which together can create the atmosphere of a unique home with soul.

Retro Accessories are unique, handcrafted, premium-class details. The artisanal nature of their production means they have an individual lead time.
