Situo 5 Variation io White DIY

- **manufacturer: Somfy**
- type: radio, portable
- number of controlled devices: 5 devices or groups

Situo 5 Variation io is an extended version of Situo 1 – it allows you to control from one device to 5 different window coverings or their groups.

Just like the basic version, it is comfortable to use, and its universal design allows it to be used in any interior.

It is equipped with a standard set of up-down buttons, a rotary regulator to adjust the angle of the slats and a programmable "my" button. **The remote control is able to memorise the selected position of the blind**, which can be recalled by pressing this button.
