Smoove Uno WT 5P

- **manufacturer: Somfy**
- type: wired, wall-mounted
- number of controlled devices: 1 or 2

The Smoove mechanical wall remote control is connected directly to the electricity network. It allows you to control window covers in the basic scope by lowering and raising them.

The Uno device version allows you to control one device. **The Duo version controls two window covers independently.**

The switch housing is made of white ABS Novodur H950 plastic, **highly resistant to scratches, the aesthetics of which allows it to be installed in any room.**
