Succes Light

- **manufacturer: Sukces**
- amperometric obstacle detection
- soft start and stop
- automatic closing
- automatic opening and closing force setting
- LED lighting
- optional photocells and warning lights

Succes Light sectional garage door motor offers you a competitive edge with high-quality product for a significantly lower price. As a state-of-the-art device, its smooth operation technology and safety-enhancing tools fit residential buildings like a glove, even in its basic version.

The device is highly recommended as a basic garage doors motor, as additional features are bound to be added to it. As Europe's leading manufacturer, our ongoing expansion and constantly updated product catalogue provides exceptional quality and stability to our B2B partners.

Why recommend Succes Light:

- Very attractive price point compared to similar motors.
- Additional safety and convinience features are going to be implemented soon.
- Works with large doors with an area of up to 18 m^2 and a height of 3,500 mm.

Choose Succes Light if your customers:

- Expect a simple yet reliable radio-controlled motor at an attractive pricepoint.
- Require reliable LED garage lighting connected to the motor.
- Prioritise safety above all, thanks to the integrated crush protection and optional photocells installation.
