VarioSon-868 Slide

- **manufacturer: Elero**
- bidirectional radio transmitter for controlling roller shutters and blinds
- controls up to 6 devices or 6 groups of devices
- portable device
- Slide slider for precise adjustment of covers
- button for selecting manual and automatic mode
- frequency (MHz): 868
- power supply: 2xAAA batteries

The portable VarioSon-868 Slide transmitter is a lightweight and handy device, designed to control up to 6 devices or groups of them. It works with blinds and roller shutters, including screen types, so you can control your whole home with a single transmitter. It is dedicated to drives from the Elero/Nice family.

The distinguishing feature of the VarioSon-868 Slide is the Slide slider, which allows for precise positioning of the window cover. The transmitter also has a button that allows you to switch the cover's operating mode from manual to automatic.

Why you should recommend the VarioSon-868 Slide transmitter:

- it is a dedicated solution for Elero drives, making it a perfect complement covers that use such automation
- it has a modern design, which, in addition to looking good, also offers high ergonomics
- it is characterised by exceptionally easy initialisation and quick pairing with drives, which makes installation easier and faster

Choose the VarioSon-868 Slide transmitter if your client:

- has window covers or other devices operating based on the Elero radio protocol and expects the best possible compatibility
- wants to install he transmitter on the wall or place it in a vertical position when not in use, which is possible thanks to the included wall mount frame and the wide, flat base of the transmitter, respectively
- wants to precisely adjust the angle of the blinds and the height of the screen roller shutter, using just one transmitter all the time

Get to know the VarioSon-868 Slide transmitter better:

- designed to control 6 devices or 6 groups of devices
- compatible with solar drives and smart home devices operating with the same radio protocol, e.g. lighting and heating
- Slide slider for precise adjustment of covers
