# SYNEGO

COMFORT AND SAVINGS FOR EVERYDAY USE

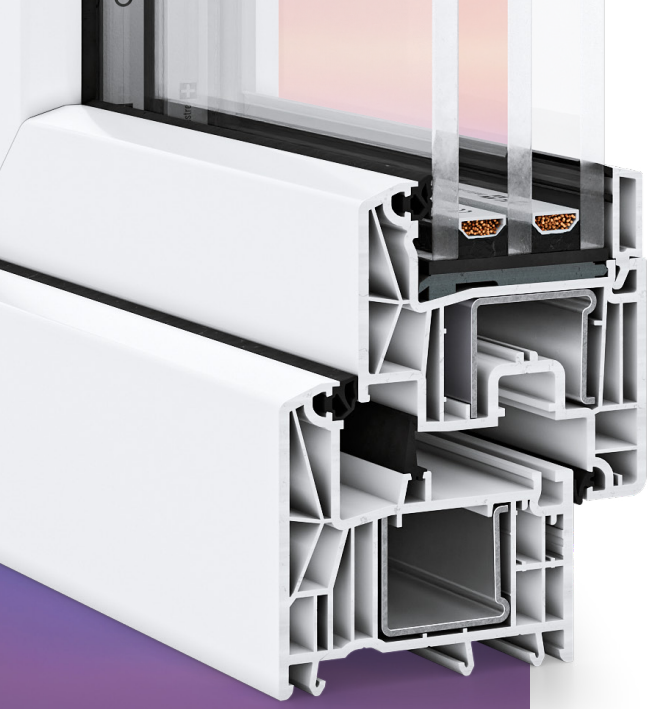

$U_w$ from 0,76

## PERFECTION
**OF SMOOTH HDF PROFILES**

## ECOLOGY
**WITH THE EcoPuls CERTIFICATE**

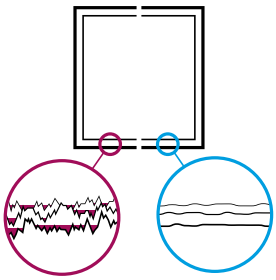

**REHAU EcoPuls**
Sustainability Competence

At least **40%** of the raw materials used come from recycling.

## High-Definition Finishing
– perfect surfaces at your fingertips

Synego profiles are an investment in quality that pays off through their easier cleaning, higher property value, as the joinery looks much better for many years.

## Synego Windows

- installation depth 80 mm
- glazing with packages up to 51 mm
- up to 5 anti-burglary points (depending on dimensions)

SLIDING SYSTEMS

## Synego HST

- installation depth 190 mm
- glazing with packages up to 51 mm
- 3 locking bolts as standard
- lift and slide system

## Synego Slide

- installation depth 156 mm
- glazing with packages up to 51 mm
- 3 locking bolts as standard

## You have the right to feel safe.

Advanced Roto hardware provides 5 anti-burglary points as standard, protecting against intruders looking for an easy way to enter the building.

## Gain light, gain space. Without compromise.

Synego sliding systems will allow you to open interiors to healthy, natural light without fear of higher heating bills or reduced security for household members.

## Match them to your style*

Sample colors from a palette of several dozen proposals.
